## ABOUT US

### WHY RAH?

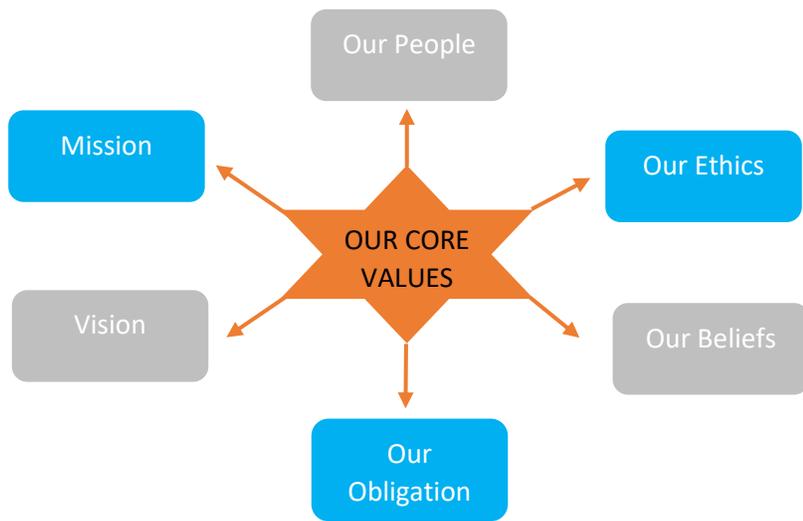

Current market offerings in the Tax, Finance and Accounting domains are either geared towards servicing corporates and are very expensive or offerings are in the form of one-time, arms-length piecemeal solutions without any ongoing advice and support which is required for young, high-growth companies. We are here to fill that gap with our experienced team of professionals and Partners having best in industry experience. Some of the professional advantages of engaging our firm are as follows:

- ▶ **Cost Saving:** We, through our dedicated team of professionals, offer you quality services at very reasonable prices. Also, our *one-stop shop* concept help to reduce the overall cost for our clients.
- ▶ **Focus on core business:** The attention and time this demands sacrifices from the CEO's time which could be dedicated to the company's important but seemingly not urgent goals like strategy, entering new markets and streamlining processes.
- ▶ **Experience and quality of services and practices:** Our team consists of professionals having the best in industry experience. This helps us deliver and put the best in class practices for our clients resulting in best in class quality with considerably less cost.
- ▶ **Systematic Growth and legal compliance:** Financial and legal departments, if ignored, may cause problems such as expensive litigation and unsystematic working with no checks and processes in place.
- ▶ **Flexibility:** In a new setup, it is difficult to estimate human resource requirement. Growth of business is hard to predict and the cost of understaffing and overstaffing can be very high, apart from the cost incurred to hire talent.
